

# Working with Danielle's r e a m e s t i n a t i o n s

## *Save Time*

Planning a trip can be so complicated, and the internet provides so much information that it can be overwhelming. When working with Danielle's Dream Destinations, you provide me your preferences, budget, travel style and other information. Then I narrow down the options for you, taking the stress out of planning your trip.

## *I Have Your Best Interests In Mind*

I want you to be able to enjoy your trip, be able to relax, and not have to worry about any of the details. I care that you have a great vacation. What booking engine cares about your vacation?

## *Personalized Service*

I work for you like a butler or concierge. Want to make advance restaurant reservations at your resort (if it accepts advance reservations)? I can help you. Want to plan an outing to see the ruins? I can help you. Want a luxury transfer to the airport? I can help you with that as well.

## *No Fees (for most services)*

Most trips I plan do not have any fees for my services. However, some multi-city or multi-country custom trips do require a small fee because of the hours of work required to prepare an itinerary.

## *How Does it Work?*

I work with you to put together a trip based on your preferences, travel style, and budget. I am compensated for my time when, after you travel, the travel company that your trip is booked with pays me a commission. It does not cost extra to book with me versus booking on your own. Please book your trip with me so I can continue to provide my services. My experience, connections, and detailed travel planning allow you to have a great trip.

## *Support*

During travel, myself or my team will support you during your trip if you need assistance. What could be more relaxing than knowing that someone will have your back and help you out during your trip should the need arise.

## *Travel Insurance*

Your trip is a significant investment, and we recommend the purchase of travel insurance. Travel Insurance is a great investment to protect your trip for cancellation, as well as medical and trip interruption coverage. Most health insurance companies do not cover costs when you are overseas. You do not want to be hit with an unexpected large bill on your vacation.
